Impedance:	2.5 Ω
Voice Coil:	KSV Φ20.4 mm
Magnet:	5.18 OZ (147g) Neodymium
Net Mass (1pr):	Approx. 840g

IMPORTANT

- Thank you for purchasing the car Mid-Range speaker. For the secure installation and perfect operation of your Mid-Range speaker, please read the instructions carefully.
- By planning your installation carefully you can avoid situations where the performance or reliability of your system is compromised.
- We can not recommend specific locations for the Mid-Range speaker for each car, but we can give some general tips.
- Before connecting the Mid-Range speaker to the speakers, confirm that the power has been turned off. The click noise generated by the connection if the power is on may damage the Mid-Range speaker.

INSTALLATION

Install the speaker to the suitable location of your vehicle as illustrated below. It is recommended to have the Mid-Range speaker installed by a qualified technician.

Before installing the Mid-Range speaker to your vehicle:
Prepare a rag to clean the installation and remove moisture, dust and dirt.

1. Prepare a screw driver, clean the place to install, to remove humidity, dust and stains.
2. Join the supplied parts to the speaker as illustrated.
3. Use flat countersunk screws to attack the brackets.
4. Fix the speaker with binding screws firmly.

* Screw (M6 x 16mm)

CAUTION

If the speaker is installed improperly, it may come off from the dashboard during driving, causing injury or accident.

HOW TO COMPLETE THE WIRING

- Consult the diagram below. Be sure to connect corresponding terminals, i.e. "+" to "+" and "-" to "-".
- Connection with reversed polarity will degrade the quality of production.
- Route the speaker cord so that it does not obstruct safety drive.

WHAT'S IN THE BOX

Check to be sure you have the following items.

If any of the items below are missing, contact your dealer immediately.

1. Speaker x 2pcs
2. Screw (M6 x 16mm) x 4pcs
